

Call for Papers

// 8TH WORKSHOP ON

Experimental Economics for the Environment *Behavioral Change for a Sustainable World*

12 July – 13 July 2023 | Bochum

We are pleased to announce the 8th Workshop on Experimental Economics for the Environment on the 12th and 13th of July 2023. The keynote speakers for this event are Paul Smeets (University of Amsterdam) and Verena Tiefenbeck (University of Erlangen–Nuremberg).

We are building a programme that focuses on discussion, interaction, and feedback to promote the contribution of experiments to environmental economics and policy. Priority will be given to earlier stage work by early career researchers (PhD students/postdocs), but submissions of projects at all stages are welcome.

The deadline for submission of extended abstracts (max. 1 page) is Friday 26th of May 2023, and authors will be notified of acceptance of their contributions by Friday 9th of June. Please indicate in your submission the stage of your work (experimental protocol, preliminary results or working paper) and whether you qualify as an early career researcher.

Attendance is open and free to all.

PAPER SUBMISSION

To submit an abstract, please fill out the following [form](#).

We are looking forward to seeing you!
